# WHO WE ARE?

**Oman Portuguese Cement Products LLC (OPCP)** was established in the Sultanate of Oman in 2008. The company is a leading manufacturer and seller of concrete blocks, interlocks, kerbstones, ready-mix concrete and precast products in Al-Batinah and Duqm regions. The philosophy of the company is structured on principles of innovative approach towards products development, producing consistent quality products, efficient operations, understanding customer's requirements, employee's development, harmony and coordination within teams and their members.

**Since the beginning, we have aimed to distinguish ourselves by being the strongest manufacturer and supplier of a wide range of concrete products such as blocks, interlocks, paving tiles, kerbstones, precast elements and ready-mix concrete.**

Combining aesthetical sense and high-quality standards, a unique bond tightens the technical knowledge and the design, creating an effective harmony to our products.

Therefore, making the difference and dedicating exceptional services to our valuable clients, we became a reliable business.

“ The trust and the satisfaction of our customers is the motivation that keeps us focused on improving our performance ”

# OUR COMMITMENT

“The trust and satisfaction of our customers is the motivation that keeps us focused on improving our performance. We believe in a continuous search for innovation in order to manufacture lifetime lasting concrete products.

OPCP'S concerns are addressed not only to economic developments. We strongly believe in a sustainable growth of Omani society.

As an involved corporate company, we work side by side with our clients, staff and suppliers, motivating and involving them all, by establishing a chain for social responsibility with deep respect to nature and global welfare.”

Mr. José Maria Silva  
(General Manager)

# MAIN PROJECTS

By expanding our business through the territory of Oman, from Sohar to Duqm, we accept the commitment of encouraging the economy of the Sultanate, generating employment opportunities, contributing to the development of local suppliers and customers and being closer to our client's requirements.

Over the years, OPCP has been investing in the knowledge, expertise with commitment and self-sacrifice, gaining a remarkable reputation among our customers.

Phase 5

# MAIN PROJECTS

We build a solid path to successfully becoming a main reference in the construction business in Oman, providing products and services to a variety of projects, such as:

- Special Task Force Complex-Sohar
- Hotel Radisson Blu
- Free Zone Sohar Project
- Pepsi Warehouse
- Lulu Khasab/Buraimi/Sohar
- Police Station Liwa
- Police Complex at Duqm
- Container Terminal C
- Shinas Gate
- Batinah Expressway- Phase 5
- Al Batinah Coastal Road - Sohar to Khatmat Malaha

- Al Batinah Coastal Road - Barka to Wundam
- New Engineering Laboratory - Applied Sciences Inst.
- College of Technology at Shinas - Ministry of Manpower
- Raysut Terminal at Duqm Port
- Jindal Shadeed Steel
- Grid Stations
- Oman International Container Terminal C- Sohar
- Buraimi Fire Station Project
- 150 Housing Units for SEZAD-Duqm
- Sultan Qaboos Mosque-Sohar

Police Station in Liwa

OMAN PORTUGUESE  
CEMENT PRODUCTS LLC

“ State-of-the-art Ready-Mix  
Plants guaranteeing the delivery  
of high-quality concrete to  
clients ”

# READY-MIX CONCRETE

Equipped with state-of-the-art Ready-Mix Plants, which are computerized and fully automatized, OPCP guarantees the delivery of high-quality concrete and an optimal delivery rate to their clients, with the permanent plants located in Sohar and Duqm, and movable central batching plants. OPCP works closely with clients representing a reliable and supportive supplier for all kinds of projects.

The quality and compliance of the products provided to the clients are always our main concern in our management products process. Therefore OPCP has established a continuous survey and control of materials and equipment involved in our production process. OPCP Quality Management System is widely implemented in all phases of the product production, from the reception of the materials until the final delivery to the client.

Any qualified project requires a timely and continuous delivery of concrete. OPCP uses a large, younger and well-maintained fleet of RM Transport trucks in order to comply with these requirements.

“ OPCP Quality Management System is widely implemented in all phases of the product’s production, from the reception of the materials until the final delivery to the client ”

OPCP fleet also incorporates a range of pump trucks providing the right solution when the contingencies of the project require the delivery of fresh concrete to multiple, high or distant places.

Superior quality aggregates sourced from OPCP’S own quarries and processed through high-tech plants are ensuring consistent quality of our products.

All the plants are also equipped with temperature control systems which include flake ice units, ice storage units, water chillers and automated loading/mixing units.

# BLOCKS

OPCP offers a wide range of traditional concrete block products suitable for the high demands of the Arabian environment. Unique and combined utilization of OPCP Hollow, Solid, Cellular, Hourdi and Insulated blocks will provide an appreciable

flexibility to the architectural designs, fulfilling quality and the design specifications of the project at the same time.

OPCP has a range of blocks which comply with Omani and UAE standards.

SOLID	LENGTH (MM)	WIDTH (MM)	HEIGHT (MM)	WEIGHT/UNIT (KG)
4"	390	90	190	14
6"	390	140	190	22
8"	390	190	190	33

CELLULAR	LENGTH (MM)	WIDTH (MM)	HEIGHT (MM)	WEIGHT/UNIT (KG)
4"	390	90	190	10
6"	390	140	190	14
8"	390	190	190	19
Reinforced 4"	390	90	190	12
Reinforced 6"	390	140	190	16
Reinforced 8"	390	190	190	21

HOLLOW	LENGTH (MM)	WIDTH (MM)	HEIGHT (MM)	WEIGHT/UNIT (KG)
4"	390	90	190	8
6"	390	140	190	12
8"	390	190	190	18

INSULATED	LENGTH (MM)	WIDTH (MM)	HEIGHT (MM)	WEIGHT/UNIT (KG)
	400	200	200	23

HOURDI BLOCK	TOP LENGTH (MM)	BASE LENGTH (MM)	WIDTH (MM)	HEIGHT (MM)	WEIGHT/UNIT (KG)
	420	380	200	200	19

# INTERLOCKS

OPCP products have been designed considering a high-cycle frequency of heavy and dynamic loads. The exceptional strength and stability behavior combined with multiple aesthetical formats and colours is provided to each project for the best solutions in the market.

INTERLOCK	LENGTH (MM)	WIDTH (MM)	THICKNESS (MM)	WEIGHT (KG)
Rectangular	200	100	60 80	2.9 3.8
Uni	225	112.5	60 80	3.5 4.7
Octagonal	200	200	60	4.8
Rhombus	200	117	60	2.4
Cube	80	80	60	0.9

TILE	LENGTH (MM)	WIDTH (MM)	THICKNESS (MM)	WEIGHT (KG)
Square	300	300	60	12.5

# KERBSTONES

Safety and durability are targets to achieve when OPCP produces kerbstones. Mountable and non-mountable kerbstones are produced according to the most demanded norms and specifications, providing designers and clients with products that are adequate to their projects.

KERBSTONE	LENGTH (MM)	WIDTH (MM)	BASE WIDTH (MM)	TOP WIDTH (MM)	WEIGHT/UNIT (KG)
Non-Mountable	600	350	150	120	68
	600	255	155	125	54.5
	600	205	105	105	31

KERBSTONE	LENGTH (MM)	WIDTH (MM)	BASE WIDTH (MM)	TOP WIDTH (MM)	WEIGHT/UNIT (KG)
Mountable	600	350	175	50	79.5

# PRECAST PRODUCTS

One of the peculiar advantages of concrete is the possibility to produce countless forms and designs. A combination of all inherent properties of concrete allows the designer, engineer, client and community to produce all those elements that are necessary to their projects and therefore to our life. OPCP has wide international experience in the field of precast products. Structural, roads, railway, hydraulic, communications, electric and oil industry precast elements are produced according to national and international norms. OPCP can provide any precast elements in cooperation with its client in order to match their requirements.
